This is a very good book. I have used it to study the biochemistry of the metabolism over any other thing. The boxes... I think that have so many those and by this, may be is a little hard to put any in the right context - like a content table, but I don't know if put these informations in the context or, for each part do a new topic for example will help.

Chiropractic is a form of alternative medicine mostly concerned with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. Some proponents, especially those in the field's early history, have claimed that such disorders affect general health via the nervous system, through vertebral subluxation, claims which are demonstrably false.
