

### **case files family medicine pdf**

The Jahi McMath case involved a teenage girl who was declared brain dead in California following surgery in 2013 at age 13. This led to a bioethical debate engendered by her family's rejection of the medicolegal findings of death in the case, and their efforts to maintain her body using mechanical ventilation and other measures. Her parents considered these measures to constitute life support ...

The index case is the first documented patient in the onset of an epidemiological investigation, or more generally, the first case of a condition or syndrome (not necessarily contagious) to be described in the medical literature, whether or not the patient is thought to be the first person affected. [citation needed] An index case will sometimes achieve the status of a "classic" case study in ...
