Proxemics is the study of human use of space and the effects that population density has on behaviour, communication, and social interaction.. Proxemics is one among several subcategories in the study of nonverbal communication, including haptics (touch), kinesics (body movement), vocalics (paralanguage), and chronemics (structure of time).. Edward T. Hall, the cultural anthropologist who ...

All of the participants correctly identified whether the candidate was male or female. For all studies we used analysis of variance (ANOVA) to test the effects of gender of candidate, the ask manipulation, and gender of evaluator on the dependent measure.

### **Social incentives for gender differences in the propensity**

Conformity is the act of matching attitudes, beliefs, and behaviors to group norms. Norms are implicit, specific rules, shared by a group of individuals, that guide their interactions with others. People often choose to conform to society rather than to pursue personal desires because it is often easier to follow the path others have made already, rather than creating a new one.

The criterion task used in Study 2 was an architectural design task modeled after a complex research and development problem (.). We had a sample of 63 individuals complete this task working alone, and under these circumstances, individual intelligence was a significant predictor of performance on the task ( $r = 0.33$ ,  $P = 0.009$ ). When the same task was done by groups, however, the average ...
