In the English language, the word nigger is a racial slur typically directed at black people. The word first originated in the 18th century as an adaptation of the Spanish negro, a descendant of the Latin adjective niger which means black. It was often used derogatorily, and by the mid-twentieth century, particularly in the United States, its usage became unambiguously pejorative, a racist insult.

In the fields of computational linguistics and probability, an n-gram is a contiguous sequence of n items from a given sample of text or speech. The items can be phonemes, syllables, letters, words or base pairs according to the application. The n-grams typically are collected from a text or speech corpus. When the items are words, n-grams may also be called shingles [clarification needed].
