Unintended Pregnancy in the United States. On average, U.S. women want to have two children. To accomplish that goal, a woman will spend close to three years pregnant, postpartum or attempting to become pregnant, and about three decades more than three-quarters of her reproductive life trying to avoid an unintended pregnancy.[]For a range of social and economic reasons, most individuals ...

Is the American public becoming less religious? Yes, at least by some key measures of what it means to be a religious person. An extensive new survey of more than 35,000 U.S. adults finds that the percentages who say they believe in God, pray daily and regularly go to church or other religious services all have declined modestly in recent years.

The distribution of wealth is a comparison of the wealth of various members or groups in a society. It shows one aspect of economic heterogeneity. The distribution of wealth differs from the income distribution in that it looks at the economic distribution of ownership of the assets in a society, rather than the current income of members of that society. According to the International ...
