The cell (from Latin cella, meaning "small room") is the basic structural, functional, and biological unit of all known living organisms. A cell is the smallest unit of life. Cells are often called the "building blocks of life". The study of cells is called cell biology. Cells consist of cytoplasm enclosed within a membrane, which contains many biomolecules such as proteins and nucleic acids.

A clandestine cell system is a method for organizing a group of people such as resistance fighters, sleeper agents, or terrorists so that such people can more effectively resist penetration by an opposing organization (such as law enforcement).. In a cell structure, each of the small group of people in the cell only know the identities of the people in their cell.
