Once you have learned the basics in CAD drawing, you will have a skill that will last you a lifetime. Here's what a recent student on the course, Cady Dodds, a carpenter designer/maker who runs Perfect Space Carpentry, had to say in an email to me: "The course has been great for me, first step towards electronic drawing.

A router is a hand tool or power tool that a worker uses to rout (hollow out) an area in relatively hard material like wood or plastic. Routers are mainly used in woodworking, especially cabinetry. Routers are typically handheld or fastened cutting end-up in a router table. The hand tool type of router is the original form. It is a specialized type of hand plane with a broad base and a narrow ...
